What did you like most about this course and/or the instructor's teaching?

He was always available after class and a significantly better teacher after hours as well.

What about this course and/or the instructor's teaching needs change or improvement?

Professor Chang is not a good speaker. He consistently repeats himself and trips over his own words. Listening in class is extremely difficult, and I gave up after the first class. He also assumed we have more knowledge of math than we do. The first exam was brutal.
